BASIC PLAYS

TYPES OF SPORTS WAGERS

STRAIGHT BET – Is an individual wager on a game or event that will be determined by a point spread, money line or total.

PARLAY – Is a single bet that links two or more wagers; to win the bet, the player must win all the wagers in the parlay. If the player loses one wager, the player loses the entire bet. However, if the player wins all the wagers in the parlay, the player wins a higher payout than if the player had placed the bets separately

IMPORTANT TERMS

POINT SPREAD – The most popular sports bets are based on the point spread. The point spread represents the margin of points in which the favored team must win by to “cover the spread”. Bets on the point spread are usually offered at 11-to-10 odds. For example, a player must bet \$11 to win \$10 for a total payout of \$21 or \$110 to win \$100 for a total payout of \$210.

MONEY LINE – The money line represents the odds of a team winning the game outright without the use of the point spread. The money line is expressed as a 3-digit number. For example, -150 means a player must bet \$150 for every \$100 they wish to win, \$15 for every \$10 and multiples thereof. Or, +140 means a player will win \$140 for every \$100 they bet.
